

Nickhill Bhakta, MD, MPH

Assistant Member

Regional Director, Sub-Saharan Africa Program

Director, Disease Burden and Simulation Unit

Departments of Global Pediatric Medicine, Epidemiology and Cancer Control, Oncology

St. Jude Children's Research Hospital Faculty

Nickhill Bhakta, MD, MPH is an assistant member in the Department of Global Pediatric Medicine at St. Jude Children's Research Hospital. A native of Chattanooga, Tennessee, Dr. Bhakta came to St. Jude in 2013 as a clinical fellow in pediatric hematology/oncology. In 2016, he joined the faculty of St. Jude Children's Research Hospital and currently leads several programs. As director of the Sub-Saharan Africa Region, Dr. Bhakta coordinates St. Jude Global capacity building efforts in the region. Additionally, as director of the Disease Burden and Simulation Unit, Dr. Bhakta has developed an epidemiology research program focusing on global disease burden, cancer survivorship, hospital-based cancer registration and health economics.

Dr. Bhakta earned his bachelor's degree with honors in history from Brown University, medical degree from the University of Cincinnati College of Medicine and masters in public health from the Harvard School of Public Health.
